

N5 Series Gas Regulator

The N5 Series gas regulator is a Certified CSA 6.22/ANSI Z21.80 self-operating regulator with vent limiting option for use in residential, commercial and industrial applications. The N5 vent limiting option allows for indoor use without the need to pipe external vent lines. With the added benefit of extended corrosion resistance the N5 allows for various applications where the best regulation performance is required.

FEATURES

- Certified CSA 6.22/ ANSI Z21.80 Line Pressure Regulators
- Vent limiter option
- Multi-position installation
- Extended corrosion resistance
- Up to 15 psig operating pressure

SPECIFICATIONS

- Pipe Sizes 3/8" to 2" NPT
 Gas Types Natural gas, LPG, air, Other dry non corrosive gases.
 Maximum Inlet Pressure 2 psig(meets CSA); 15 psig max.
 W/Vent Limiter 2 psig(meets CSA); 10 psig max.
- Maximum Emergency Inlet Pressure 85 psig
- Materials
- Housing Epoxy coated aluminum
 - Diaphragm Reinforced Buna N
 - Valve seat Buna N
